BELINDA'S STORY

Belinda Mulrooney was determined to become successful. She was an entrepreneur selling such items as coal, sandwiches, ice cream and silk lingerie at a profitable return. When gold was struck in 1896, she wasted no time in securing provisions and packers to escort her to the Yukon.

Once in Dawson City, she started turning a pretty penny selling her goods. Taking her profits, she invested in mining properties and diversified in the Hygina water company and the first telephone system in the land. She made her first million by 1900.

The Fair View Hotel was built by Belinda. It was out of town on the confluence of the Bonanza and Eldorado rivers. It was a struggle at times but she made it a successful business through her hard work, enterprise and exceptional service. She was truly an incredible woman of the Klondike.
